OBJECTIVE

I am a Computer Science graduate eager to continue exploring the inspiring, innovative fields of Software Development and Data Analysis. I have hands-on experience with 2+ programming languages, particularly skilled in Python and Java. Additionally, I am proficient in data analysis tools such as IBM Cognos, Power BI, and Excel, and I have experience using Python for data analysis and AI/ML applications. I am seeking an opportunity to grow and learn from experienced team members while leveraging my project experience to contribute effectively to a Software Development team.

- Artificial Intelligence – Game Playing Agents (Dec 2021)
- Programming for Everybody – Python (Jan 2022)
- RPA developer Foundation (Jun-2022)
- HTML certification (Sep 2022)
- Python Essentials 1 (Jun 2023)
- Power BI for beginners (Jul 2024)

WORK EXPERIENCE (INTERNSHP & PROJECTS)

EXPERIENCE

Member Technical | Broadridge   **01/07/2024 – present**
- Learned to work with Power BI
- Learned to work with Cognos IBM tool
- Learned Data warehousing
- Acquired knowledge on SQL queries

Tech Intern | Broadridge   **08/01/2024 – 28/06/2024**
- Learned Automation testing using Serentity BDD framework
- Learned to train Deep learning models
- Learned to debug code

Software Developer Intern | Novigo Solution Pvt Ltd   **01/06/2022 – 30/06/2022**
- Learned software engineering process improvement and best practices
- Learned UiPath studio operation and developing solution for business problems
- Developed RPA projects UI Path studio
- Worked with developers to identify and remove software bugs

Software Developer Intern | Unimoni Financial Service Ltd   **11/05/2023 – 11/06/2023**
- Developed a website for event registration and payment using HTML, CSS and JavaScript
- Tested software for bugs and operating speed
- Analyzed user needs and software requirements to determine feasibility of design and ensured project completion 1 week prior to targeted due date

PROJECTS

1. **Stock data extraction using UI Path studio**
   - Developed a stock data extraction and analysis system using an advanced automation software called UI Path studio and Excel
2. **Ola and Uber price comparison using UI Path studio**
   - Developed a system to compare Ola and Uber price to a specific location using UI Path studio and Excel
3. **School Management System**
   - Developed a web application for Uttarahalli public school to manage the entire school activity which include attendance entry, mark entry, study material uploading, online library, leave application and result announcement.
   - Tools used

5. **Event Registration Website**
   - Developed an event registration website for Unimoni financial service Ltd for registering event conducted by Unimoni
   - Tools used
     Front end: HTML, CSS, JavaScript
     Back end: Node.js, MongoDB
6. **Mini project on Bank Management System**
   - Developed a bank management system for manage the entire activity of a bank which include depositing, withdrawal of money and transfer of money to another account. This project include three logins Manager login, Cashier login and Account holder login.
   - Tools used
     Front end: HTML, CSS, JavaScript
     Back end: PHP
7. **Document Fraud Detection**
   - Developed an AI solution to detect the tempered image/PDF using Artificial Intelligence
   - Used Seg_dtd model to detect tempered area
   - Used deep learning network along with Vgg16 pretrained model to classify handwritten and printed documents.

SKILLS

- Python
- Java
- Oracle SQL
- SPSS
- Cognos
- Power BI
- MS Excel
- UI Path Studio

EXTRA CURRICULAR ACTIVITIES

- Participated in UI/UX designing competition (Blossooms), Christ University 2022-23
- Participated in hackathon competition, Christ University 2022-23
- Participated in Technical Workshop

SOFTSKILLS & INTERESTS

SOFTSKILLS
- Problem Solving
- Time Management
- Teamwork
- Patience
- Project management

INTERESTS
- Traveling
- Listening to Music
- Sports
